# CERTIFICATE

This is to certify that

**Dmytro Dudka**

---

Has completed the course

**Renewable Energy Sources**

**03rd Sep 2017**

---

Date of Award

*Loise Hakeagh*

---

Certification Officer

This is to certify that the management of Alison has decided to award Dmytro Dudka living in France the certificate of completion in Renewable Energy Sources.

### Learner Details

**Name:** Dmytro Dudka  
**E-mail:** dudka.dmytro@gmail.com  
**Country:** France

### Course and Result

#### Renewable Energy Sources

**Score**

85%

**Study Time**

30:58:33

This free online course is intended to introduce students to the whole area of energy sustainability, climate change and renewable energy technologies. Many greenhouse gases, such as carbon dioxide, nitrous oxide, and methane, occur naturally. However, during the past two centuries, human activities have also added significantly to the level of these naturally occurring gases.

### Modules Studied

- Module 1:** Energy Use and Sustainability
- Module 2:** Global Climate Change
- Module 3:** Introduction to Non-Renewable Energy Sources
- Module 4:** Non-Renewable Energy Sources - Petroleum and Natural Gas
- Module 5:** Non-Renewable Energy Source - Coal
- Module 6:** Non-Renewable Energy Source - Nuclear Power
- Module 7:** Introduction to Renewable Energy Sources
- Module 8:** Renewable Energy Sources - Wind and Solar Power
- Module 9:** Renewable Energy Sources - Geothermal and Water-derived Energy
- Module 10:** Renewable Energy Source - Biofuels
- Module 11:** End of Course Assessment
